# Critical Questions

Who is the real poor?

How to support them?

How to supervise the process?

**Step 1:** Identify those who are in real poverty with big data

**Step 2:** Manage poverty relief projects and funds with big data

**Step 3:** Supervise and evaluate with big data

- Consolidate resources of social security, employment, skills training, e-commerce, etc. with big data
- From “cash donation” to “capability support”
- Precise and fundamental
