

Online Training Workshop “Advancing Government Innovation and Leveraging
Frontier Technologies for Disaster Risk Reduction and Building Resilience”

Nepal Presentation on Session 3: Inclusion of Vulnerable Groups in DRR Policy Design and Implementation to Build Resilience

Purushottam Ghimire
Nepal
1st Sept, 2020

Nepal's vulnerability to natural hazards; ...The Reality

- Nepal Ranks 11th- in terms of Earthquake (GRIP/BCPR/UNDP , Study Report by NSET)
- 6th to climatic hazards (UNDP-2004 “Reducing Disaster Risk”), now it’s 4th
- 30th in terms of floods: (UNDP / BCPR, 2004)
- Kathmandu, 21st most vulnerable city of the world;
- Natural Disaster HOT SPOT: Nepal (World Bank, 2005)
- In an average: “1 disaster and 2 deaths per day” (DesInventar data base 1971 - 2007, MoHA - www.desinventar.net)
- Nepal lies on Seismic Active Zone, according to Geological Study

Major Disasters in Nepal

- | | |
|---------------|----------------|
| 1. Flood | 8. Drought |
| 2. Landslide | 9. GLOF |
| 3. Earthquake | 10. Avalanches |
| 4. Epidemics | |
| 5. Inundation | |
| 6. Fire | |
| 7. Hailstone | |

Frequent Disaster : Landslide, Floods, Inundation and Epidemics

Major Legal Framework Federal, Province and Local Level

FEDERAL GOVERNMENT

Natural Calamity (Relief) Act, 1982
up to 2017, replace by

Disaster Risk Reduction and
Management Act, 2017
