RESPONSE**

UN DESA WEBINAR SERIES

Critical Inflection Point for Tech Governance

- Digital kept public services functioning during Covid
- Yet only 53% of planet had access
- 3.5 billion could not access digital service lifelines
- 1 billion children could not continue their education
- Social & economic future of the planet requires more

UN DESA WEBINAR SERIES

How Big Tech Can Help

- **Global Connectivity:** Leverage tech giants global reach and innovation to connect all
- **AI:** Build a common global framework to bring together AI initiatives and focus on ethical and ethical requirements not just tech
- **Trust & Security:** Create software, devices services, and dialogues that promote transparency, advance digital safety and keep personal data safe
