Enhancing capacities of Public Institutions

- *COVID 19 an opportunity? Recognition of good, inclusive governance frameworks in shaping the ability to respond to the challenges it confronts. (Eg. Role of local government in India)*

- *Critical elements of building governance – understand gaps. Three critical elements:*
  - *Trust (citizen-state + within state)*
  - *Co-ordination and deliberation (breaking silo's)*
  - *Technology a tool or a 'bypass?'*
  - *Governance where boundaries are fluid (migrant works)*
  - *Governance for accountability (not accounting)*

- *Capacity building toward 'common purpose'*

Moving forward: Enhancing Impact

- *Building knowledge networks (technology as a tool)*

- *Documenting and sharing best practice*

- *Building public administration as an 'academic field'*
